Rodeo committees and officials should be encouraged to set meetings with the contestant body to explain the ground rules and other local rules pertaining to the competition. ARTICLE IV (a): CONFLICT OF INTEREST

Section 1: The purpose of this conflict of interest policy is to protect the NJRA when it is contemplating entering into a transaction or arrangement that might benefit the private interest of an Officer or member of the Board of Directors of the NJRA or might result in a possible excess benefit transaction. This policy is intended to supplement but not replace any applicable state and federal laws governing conflict of interest applicable to nonprofit and charitable organizations.

Section 2: Any Officer or member of the Board of Directors who has a direct or indirect financial interest is an interested person. A person has a financial interest in the person has, directly or indirectly, through business, investment or family:

- (c) A potential ownership or investment interest in, or compensation arrangement with, any entity or individual with which the NJRA is negotiating a transaction or arrangement.
- (d) Compensation includes direct and indirect remuneration as well as gifts or favors that are not insubstantial. A financial interest is not necessarily a conflict of interest. A person who has a financial interest may have a conflict of interest only if the Board of Directors decides that a conflict of interest exists.

Section 3: In connection with any actual or possible conflict of interest, an interested person must disclose the existence of the financial interest and be given the opportunity to disclose all

material facts to the Officers and Board of Directors regarding the proposed transaction or arrangement.

Section 4: After disclosure of the financial interest and all material facts, and after discussion with the interested person, the Board of Directors shall decide, by vote, whether a conflict of interest exists. The Board of Directors, after exercising due diligence, shall determine whether the NJRA can obtain with reasonable efforts a more advantageous transaction or arrangement from a person or entity that would not give rise to a conflict of interest.

Section 5: If a more advantageous transaction or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the Board of Directors shall determine, by vote, at a regular business meeting, whether the transaction or arrangement is in the best interest of the NJRA, for its own benefit, and whether it is fair or reasonable. In accordance with the above determination the Board of Directors shall vote as to whether to enter into the transaction or arrangement.

Section 6: Twenty (20) members or more may petition the President, in writing, to request that the vote, on whether a transaction or arrangement with an interested person, be referred to the membership then in attendance at the regular business meeting.

ARTICLE V: ELECTION OF OFFICERS

For any position in which more than one person is nominated, ballots will be sent with Finals Rodeo entry forms to each member, to be returned with entry. Ballots will be counted and results reviewed by a non-conflicting ballot committee. New officers shall take office when the year's business is over. This should be after the Finals Banquet.

Section 2: Any officer may be removed by a vote of (70) percent of the membership present at a special meeting. Any Director may preside at the meeting, especially for this purpose. The meeting must be requested by at least (5) members and all members must be given notice of the meeting at least (10) days in advance. Notice will be given by U.S. Mail to the last given address of each member.

Section 16: The management assumes no responsibility or liability for injury or damage to the personal property or stock of any owner, contestant or assistant. Section 29: Contestants must compete on the day drawn for them. Changes will only be made by approval of judges and said rodeo secretary, and will require a medical slip and/or vet slip. Draw outs are up to the consideration of judge's (2), however, it must be an actual trading out of contestants. It is the responsibility of each contestant to make sure they have entries and fees in before the date due. It is the individuals' responsibility to make sure they have received the entry form from each rodeo.

Section 30: Contestants diagnosed with a concussion prior to or during any rodeo must provide documentation by a physician before they may compete in any future rodeos.

Section 31: Co-approval must be with a rodeo association maintaining a valid non-profit status, otherwise it is not considered to be co-approved and NJRA rules will take precedence. If a rodeo is double sanctioned by the NJRA, we will follow that rodeo's ground rules. The events will be sanctioned as long as they are NJRA approved events.

Section 32: Three (3) call rule is in effect for slack and performance.

Section 33: A qualified person/parent may haze for any contestant if the person/parent is a member of the NJRA in good standing, or if the person is working on behalf of the stock contractor hired for that particular rodeo. All hazers other than contestants must be approved by the Board. Section 34: All contestants must assist, including helping in the arena, when asked by a Board member. ARTICLE XII: NJRA POINTS SYSTEM AND ALL AROUND

Section 1: The NJRA has been organized for the purpose of establishing its own point awarding system to determine Champion Cowboys and Cowgirls. Even if a rodeo only awards prizes to three (3) places; points will be given to six (6) as follows:

FIRST.....	18 POINTS
SECOND	15 POINTS
THIRD	12 POINTS
FOURTH	9 POINTS

SIXTH	3 POINTS

At any rodeo with two go-rounds points to be awarded as follows:

Letter may be personally submitted to the board or via mail or email. Request must be submitted by the deadline of the finals entries. If reason is accepted and approved by the board, the awards may then be presented.

Section 5: The judge's points on bucking events will go on rider first then animal to determine the winner. If this does not break the tie, then a coin will be tossed. When possible, ties in times events will be a run off. In either case, the points will be split and a tie run off to determine who will receive the prize. (Example: 18+15 then divides by 2. There are no second place points.)

Section 6: Members may compete at finals in events that they qualify in at least in one sanctioned event during that year's rodeo season. You may not enter finals in an event you did not compete in during the year.

If a tie still exists, then the most second places, etc., until the tie is broken. Should a tie still exist, the award should then be determined by the most first places for the year in said event, then second places, etc. until tie is broken.

Section 8: If an event was offered at only one rodeo, it will not be offered at Finals, nor will year-year awards be presented for that event regardless of how many members have qualified. If equipment is faulty, it must be replaced. Should barrier break at any point other than designated breaking point, decision is up to barrier judge. Contestant will get same stock back with lap and tap start; the time already spent will be added to time used in qualifying. If time is not recorded, the decision of the flag judge shall be final. If rope is on an animal, roper will get the animal back, lap and tap, with the rope on, in the chute. A field judge must ask contestants if they want a second loop or jump. Section 2: Re-rides may be given in all riding events. If an animal that runs off is already drawn for another contestant, that contestant must take the animal already drawn. If the stock contractor and contestant agree, such animal may be taken immediately before or after the performance. If that is the third consecutive time the animal had run off he must be taken out of the draw and an animal drawn for the second contestant out of the re-rides. If a re-ride is given because an animal hits the rider in the chute or falls, it is to be brought back except on the last performance of the rodeo. If in the opinion of the judges, a rider makes two (2) honest efforts to get out of the chute on a fighting animal and is unable to do so, he may have a re-ride drawn for him. When a final head is to be ridden in the riding events, at least two (2) head of stock will be available for re-rides to draw in case one (1) fails. After drawn re-rides are used up, all stock out that go-around, except feature animals already doubled back, will be put in hat and additional re-rides for the go-round drawn.

In the case of a two go-round rodeo, a draw will be required for each go-round. The roper drawn may compete for prizes or money but no year end points will be awarded if the partner drawn already has a partner. Arena conditions will determine start and deadline rules; penalties for violations of these rules are matters for local determination. Each team is allowed three (3) throws total. A roper roping a steer without turning loose of the loop will be

considered no catch. The neck rope must be clear of the calf and the rider must be clear of the box, before the loop can be thrown.

7. Time will be taken when steer is roped, both horses facing steer, with ropes dallyed tight. Horse's feet must be on ground and ropers must be mounted to be flagged. Steer must be up when roped by head and heels.
8. Steer must be kept stretched until inspected by field judge.
9. The following catches are legal: around both horns, around the neck or a half head.

crosses itself in a head catch; if loop is in the steer's mouth.

6. A catch declared a crossfire

8. Illegal catches will be flagged when the ropers declare themselves by dallying, and facing. Then, the team will be flagged out for the illegal catch.
9. Handling the steer roughly at any time.
10. Exceeding the 60 second time limit.
11. Loss of rope at any time and ropers must be disqualified if in the opinion of the field judge they have intentionally done so.

The judge will decide any questions as to catches in this contest. Both ropers must be in the chute area at the same time, header must leave the chute first. When contestant asks for stock, gate is to be opened and stock belongs to the roper regardless of bad breaks, such as horse wheeling in barrier, horse beating an animal out of the barrier, etc.

DALLY TEAM ROPING: Open to all Junior and Senior Division contestants. Dally Team Roping follows all of the Open Team Roping rules unless otherwise noted.

Team consists of eligible contestant who is partnered with his or her parent, or a picked or drawn approved adult helper from the approved helper list.

Headers will compete against Headers and Heelers will compete against Heelers.

Contestants will receive one-half the points awarded per NJRA Rules. (Example, 1st place receives 9 points, 2nd place receives 7.5 points, etc.)

A contestant may only enter 1 Team Roping event, Open Team Roping or Dally Team Roping, per rodeo.

BULLDOGGING (SENIOR BOYS): Time will stop when steer reaches the flag line, three-fourths (3/4) of the way down the

arena. Animals used will be closely inspected for broken horns or injury and those removed from competition. Contestants must furnish their own hazer and horse.

Only one hazer allowed. Hazer must be a contestant or from approved hazer list, but will receive no points. Hazer must not render any assistance while contestant is working steer. Failure to observe this rule will disqualify contestant. Hazer will be disqualified for jumping the steer. Both contestant and hazer must use the same horse they leave the chute with, and contestants will be disqualified if he attempts in any way to tamper with steer or chutes.

Steer must be caught from the horse. When contestant jumps at a steer, he accepts him as sound. If steer get loose, dogger may take no more than one step to catch a steer. After catching steer, dogger must bring it to a stop and twist the animal down to the ground. If steer is accidentally knocked down or thrown down before being brought to a stop or is thrown by the dogger putting horns into the ground, it must be let up on all four (4) feet and then thrown. Steer will be considered down when it is lying flat on its side, all four (4) feet and head straight. Dogger must have one hand on steer when flagged. The fairness of the catch and throw will be left to the judges and their decision will be final.

A ten second penalty will be imposed when a flag judge rules that the dogger's feet touch the ground before the flag line is crossed. If a dogger misses or loses steer, flagman must ask dogger if he wishes another jump. Dogger must decide at once or will be immediately flagged out. When horn or horns of steer are considered to have been hanging in the chute, no re-run will be given. There is no penalty for breaking horn.

WILD COW MILKING (SENIOR BOYS): 60 second time limit. Judges must stand at the chute to flag the start of the cow milking. There will be allowed one milker and one helper to each team. Milker will be allowed to leave starting place lap and tap with cow.

Any of the following offenses will disqualify: catching cow by the tail; milking cow when she is not on all four (4) feet; roper

ties rope instead of dallying; rope is dropped by both mugger and roper before cow is milked; all ropes must be off cow before

milker crosses the line (completely off and not touching cow); must be clean head catch, half head, or horn catch; milk must drop from the bottle (flag judge must count to five (5) before declaring there is no milk in the bottle); rope must be free of horse and saddle when roper comes in contact with the cow.

When a contestant asks for stock, gate is opened and stock belongs to roper regardless of bad breaks, such as horse wheeling in the chute. If a contestant knowingly get fouled and competes at stock anyway, runs are final. If stock is missed contestant gets a no time. If the cow gets out of the arena, flagman is to stop time and contestant and contestant will get the same animal lap and tap with the time he spent before the animal got out added to his total time.

SADDLE BRONC RIDING (SENIOR BOYS): Eight second time limit. Riding to be done with standard halter and one rope, rein, and saddle. Contestants are permitted to use their own saddle approved by judges and management. To be approved, saddle must be double-rig with two (2) cinches, or approved by NJRA standards. Contestants can use dry resin on saddle and chaps only.

Rider and animal to be judged separately. Time begins when horse breaks the chute. Horse must be scored over break shoulders (touching horse) as animal makes first jump leaving the chute. Rider to be given credit for spurring over the point of the shoulder. One arm must be free at all times. Riding rein and hand must be on the same side. If judges decide a horse has deliberately thrown himself, they may award a re-ride on the same horse or a re-ride horse at their own discretion. If saddle, halter, or rein comes off or should break during the ride, contestant may, as judge decides, be awarded a re-ride.

Contestants circling more than once will be flagged out. Knocking over a barrel is a five (5) second penalty. Not following the pattern is disqualification. Should barrel fall after contestant crosses the finish line, time will hold and run be considered qualified. When arena does not permit distances required in the standard pattern, these distances may be reduced to accommodate existing ground area, provided all the contestants run the course over the same distances.

Barrels will be run in the order of the day sheet. All rakes will be done by the order of the day sheet. If a rider is missing the rake will still be done according to the day sheet. Contestants may go down the rope. If the goat or calf is down, it must be brought to its feet and then thrown. Pigging string, leather goat thong, or rope may be used to tie. Contestant is disqualified if the horse comes in contact with tether of goat/calf, whether mounted or dismounted.

When tie is fast, contestant signals to judge by throwing both hands in the air. The judge will then start the six (6) second time limit on the tie. If tie comes loose or goat gets to their feet before the tie had been ruled fair, contestant will be marked no time. Goats/calves cannot be dropped from shoulder height to render them breathless and immobile. Unusual roughness in handling animals will disqualify contestant. In this event, goats/calves must be tethered at least fifteen (15) feet apart when ten (10) foot tethers are brought together. A judge will flip a coin to determine which goat/calf the first contestant in each of these events will receive. Touching poles by a contestant is permitted, but knocking a pole down is a five (5) second penalty. Penalty shall apply even if pole resets itself. Not following the pattern is a disqualification. If a horse re crosses the start line at any time before the pattern is completed, the pattern will be considered broken and run will receive a no time. A horse may start either to the right or left of the first pole and then run the pattern accordingly. One (1) 360 degree turn, continue forward motion onto pattern. Contestants circling more than once will be flagged out.

All rakes will be done by the order of the day sheet. If a rider is missing the rake will still be done according to the day sheet. The safety committee may request the rodeo committee to rake poles at appropriate intervals for the safety of the riders.

Riding will be done with one or two hands, and a loose rope, with or without hand hold. No knots or hitches permitted. Rope must come off when ride is completed. Ropes with knots, wires, or other devices used for the purpose of placing spurs therein will be considered "illegal" equipment. Riders may use dry resin only. Time begins when the animal breaks the chute. If the animal falls or rider is knocked off before time begins, judge may determine a re-ride if necessary.

Rope shall pass over the head, and then catch as catch can. The neck rope must be clear of the calf and the rider must be clear of the box, before the loop can be thrown.

If the judge sees he has made an error in flagging, (such as dropping the flag when contestant has another loop), he must declare a re-run before the contestant leaves the arena. Re-run is to be lap and tap.

Not following the pattern is a disqualification. If a horse re-crosses the start line at any time before the pattern is completed, the pattern will be considered broken and run will receive a no time. A ten (10) second penalty will be assessed for being led through any part of course. Leading includes someone running along-side the horse even if they have no contact with the horse.

Raking ground is up to the discretion of each rodeo committee.

BUCKAROO GOAT TAIL UNDECORATING - Sixty (60) second time limit, plus a ten (10) second penalty for being led

to the goat or any assistance to contestant. Leading includes someone running along-side the horse even if they have no contact with the horse. This event may be run on a track or in an arena; it is considered an arena event rather than a track event. Goats are encouraged to be small, but not required, and must be of equal weight, height, and build.

Contestant leaves score line from a moving start, races to goat which is tethered forty (40) yards distance. At the election of the officials and where width of track or arena permit, more than one goat may be staked and more than one contestant tie at a time. In this event, goats must be tethered at least fifteen feet apart when ten (10) foot tethers are brought together. A judge will flip a coin to determine which goat the first contestant in each of these events will receive.

All contestants will have their goat held at the collar while the ribbon is being untied from the goat. Time is stopped when contestant signals to judge by throwing hands in the air. If the contestant signals for time and does not have goats tail untied they will receive a no time. Ribbon will be furnished by rodeo committee, all of equal lengths of twelve (12) inches in length.

Goat must be standing when contestant crosses start line. Contestant is disqualified if the horse comes in contact with tether of goat/calf, whether mounted or dismounted.

DUMMY ROPING:

Legal Catches:

Slick Horns-	3 points
Whole Head-	2 points
Half Head-	1 point

Rope must be pulled tight on steer head. There will be a 15 second time limit for any "fishing". No full body catches- the steer can run through your loop- no fishing it after it's on the ground.

Must rope from behind the line. If you step on or over the line, it will be a warning, but points will be awarded for legal

catch. If a second offense occurs it is considered a miss, even it is a legal catch.

The dummy should be available for ropers to practice on at least two events or 1/2 hour prior to the dummy roping. The line is made six (6) feet from the front of the bale of hay for the first TWO rounds. Each round thereafter the line is moved ONE foot back.

The contestants line up in their drawn order and throw one loop at a time. While waiting in line to rope, the ropers should be getting their loop ready. The roper keeps roping and moving back until he/she has two (2) misses. Placings are established first by DISTANCE, then by POINTS. Ties are taken care of just as they are for other events.
